

## **DOUUOD Kids SPRING - SUMMER 2016**

KIDS collection 0/14 years; clothes, accessories.

DOUUOD KIDS presents for Spring-Summer 2016 an essential, comfortable and at the same time rigorous and elegant collection. With an eye to tradition, it reinterprets the world of stripes, uses highly tactile cotton cloth and light muslins for the beach. Clouds of linen blend with cotton and denim giving importance to textures and creating soft volumes. The result is a complete balance between comfort, which a child cannot do without, and good taste that has always characterized the DOUUOD KIDS line.

Details in lace, broderie anglaise and sequins enrich cotton and fleece garments reinventing traditional fabrics used by the brand. Tulle becomes important and is combined with striped muslin: this new union recalls the feeling of summer lightness. At the same time the delicacy of tulle is embellished with polka-dot embroidery making it unique and elegant.

As always, great attention is paid to the use of colours; linen, tulle and broderie anglaise are presented in black and white. Striped patterns remain traditional by alternating the colour natural with red and blue. Finally white finds many different forms: not only optical but also the colours soy, milk and natural white. Everything is interchangeable and matches easily but the trend requires a total look that enhances the striped and houndstooth effect.

The summer ceremony meets the simple taste of long linen dresses embellished with fluffy bows; becomes sophisticated thanks to pleated tulle dresses; with the use of fleece, remains true to the classic world of DOUUOD Kids.

DOUUOD Kids has become an unmistakable style, wearable clothes express a balance between comfort and elegance while keeping focused on new trends.
