

## FALL-WINTER 2017 COLLECTION

Children 0-14; clothing, accessories.

Next Fall-Winter DOUUOD Kids presents a collection which is inspired by the most meaningful lesson we can learn from children: **being free**, having no restraints and having **fun**.

So pictures overlap and mingle with floral motifs, plain colours and patterns merge to stripes; slip dresses in laced fleece matched with striped turtlenecks. For boys; military shirts in cotton are layered on printed t-shirts, while jackets and waistcoats are for a more classical and rigorous child.

And then **new colours** stand out like saffron yellow, oregano green, indigo, magnolia, which radiate the more recognizable pastel tones.

From these combinations **original ideas** and proposals come to life, such as the new concept of a dress to wear over jeans and trousers or the Amazon look softened by thin strips of velvet.

In this panorama of innovation and intuition the **tattoo** theme stands out in a more delicate version, closer to the world of children: and so from under trousers or pullover sleeves many little stars can be seen.

DOUUOD Kids never ceases to experiment and explore and this, combined with attention to **precious fabrics** and **refined lines**, is its greatest wealth. Its watchful eye and curiosity take us to the East once again, in **Japan**. With the **pyjamas style** and the printed or embroidered **kimono** theme, reinterpreted with DOUUOD Kids' more **comfortable fabrics**, proposed with jeans, t-shirts and sneakers.

The ceremony is told through organza which is embellished with **golden embroidered stars** and light velvet or in other versions it is enriched with faux fur, but without forgetting more classic fabrics, such as fleece or jacquard. The party then takes on **shiny coats** and **feathers**.

DOUUOD Kids is the emblem of **Made in Italy**'s authenticity and of the **comfortable and refined style** that distinguish the brand from its origins.
