The Dolce Bag and Mini Miss Sicily come in all the prints of the season.

### **Boy Collection**

The first theme is the Sartorial world. The style and elegance from the mens collection is translated for boys. Formal jacket are paired with form pants or denim and sneakers.

Denim is a cornerstone of the collection and come with dots, stripes or check. We find here a wide variety of t-shirts with different prints: polka dots, stripes and revisited Sicilian prints in a pop version. Prints of ladybugs, cats and dogs animate from beginning to end all the collection, including accessories and footwear.

### **Flash Collection**

As for the adults, the childrenswear collections also has a part dedicated with the most special pieces of the season which are mini interpretations of the runway show. The inspiration comes from the Spanish influence in Sicily.

The sacred heart is the symbol of the collection and we find it embroidered and printed on most items. Skirts and pants are also adorned with all the trimmings of a typical matador's costume.

The boy collection features prints of bulls and trimmings representative of a matador's costume. These trimmings are also used throughout the collection on more casual pieces to reinforce the theme of the season and to make them more fun.
