

EFVVA is a young, growing Polish children's brand.

EFVVA loves children, fashion and art. We design unique, limited collection of clothing and shoes for children from 0 months to 11 years. We use the highest quality natural materials. Our clothes and shoes are handmade in Poland, personally designed and finished by Ewa Wróbel-Hultqvist. We put a lot of heart in to our work, fine tuning the product so that it is unique to wear for its owner. Individually made for our little individualists!

Our small individuals are our greatest treasure. Therefore it is important to protect their future through care of the environment. EFVVA aims to create clothes with respect to the environment and human rights.

EFVVA was founded in 2011 by Ewa Wróbel-Hultqvist, a graduate in painting at the Academy of Fine Arts in Krakow. Ewa grew up in an artistic family where design and art intertwined with each other each day - following this path worked out as a child was natural, but the birth of the first son became the inspiration for the merger of three loves: life, painting, design, and children - The EFVVA Brand was born.
