

TOCOTO VINTAGE

- **COMPANY PROFILE**

Brand Profile – Tocoto Vintage:

Tocoto Vintage is settled in Terrassa, a little city near to Barcelona. All our products are produced in Spain and Portugal always with great care, noble materials and putting quality first and foremost.

We ship worldwide, and we count on an increasingly team worldwide! The founder and designer of the brand is Marta Navarro, who began giving life to Tocoto Vintage with the SS'12 collection, motivated by the love to her children, the sea and the little island of Formentera... romanticism and nostalgia pushed her to recover old patterns and garments purchased in antique markets in her many travels around the world.

The first collections were only for babies, but now the range of age is from 1 month to 10 years. All Tocoto Vintage collections are characteristic for the personal character, always bohemian and vintage garments, old patterns adapted to current pieces, handmade effect, embroidery and laces, perfect complements and dusty colors, are always present too. Each collection tells a different story but always with the same old spirit.
