

### **Schoolbag meets sneaker!**

satch brings the sneaker to the schoolbag. It's the very first backpack collection that is inspired by the latest sneaker trends!

The collection is stylish, light and fresh. The satch SNEAKERED collection plays with a mix of materials, a sporty look and dares to use bold colour combinations and the current most fashionable sneaker prints. The highlights of the collection are the "satch HYPE Edition", "satch MESHY Edition" and the "Lazer Edition". For these editions, we are the first ones to use real "KNIT" and "MESH" sneaker materials.

But the satch summer collection 2017 has more to offer. Besides the by sneaker inspired backpacks, the collection also contains backpacks in beautiful flower prints and designs in courageous colours. From unicoloured to multi-coloured, from checked to triangles, from plain to extravagant:

For every student, there's a satch.
