

WILD & GORGEOUS

Our Spring Summer 2018 collection draws inspiration from across the globe. We look to nature in all its majesty from the hot colours and exotic fruits of the tropics to the beautiful jewel colour saris and decoration of India as well as the soft colours and delicate, quiet wild flowers found growing, untamed, in British hedgerows. Be wild, stay gorgeous.

TOTALLY TROPICAL

BE A PINEAPPLE. Stand tall. Wear a crown. Stay sweet on the inside. That is our mantra for Spring Summer 2018 where we celebrate the tropics with our uniquely designed pineapple print in vibrant yellow and green. Add a splash of hot pink cotton crepe, a swaying palm tree and you are all set for summer.

INDIAN IKAT

The Wild & Gorgeous gaze is often drawn to the East and this summer we embrace the aesthetics of India with our beautiful giant irate print. Think jewel coloured saris swaying in the breeze. A clash of colours - hot pink, coral, orange, turquoise and green all lit up with hints of gold trim and tiny sequin details. Party wear has never been more eye catching with chiffon print dresses for wildly gorgeous girls of all aaes.

WILD FLOWER

The sweet, minute perfection of wild flowers thrill and amaze us every time winter springs into summer. Using delicate shades of soft peach, pale aqua and cream we have created a collection of dresses and separates that pays homage to mother nature in all her gentle beauty.
