## MARNI KIDS SPRING/SUMMER 2021

Along the streets of the world, every corner lends itself to becoming the setting for adventurous tales, led by little heroes and heroines of imaginary worlds. The Kids Spring/Summer 2021 collection pays homage to play, which touches cities and reaches distant, sunny destinations.

In urban parks where the color green dominates strongly, kids in search of adventures give free rein to their energy, the same energy that captured in the hand-painted floral prints defining the midi dresses and round-collared blouses.

Here, meadow flowers boldly bloom on knitted dresses and vests with a naive spirit, while intensely fuchsia leaves landed on a series of cocooned sweatshirts and t-shirts that playfully rendezvous with the miniskirts and trousers with drawstrings.

Skirts and denim trousers, tireless playmates, are embellished with fun circular patch pockets, and zippers to keep leaves and other precious secrets. Among the garments of valiant heroes, lively cotton t-shirts and baseball caps peek out, carrying the M crest.

The line of dresses, t-shirts and miniskirts characterized by jungle motifs looks towards distant horizons illuminated by the sun. The color palette draws on the nuances of the jungle and lights up with surprising combinations.

Tropical palms, which seem scribbled with wax colors, enliven white cotton t-shirts and a series of pouch bags to take to the sea. Sailor stripes follow each other on blouses, t-shirts, shorts, sweaters and cotton sweatshirts, as well as on canvas bags, which takes the imagination on pirate journeys to treasure islands.

Jungle animals inspire hooded dresses, sweatshirts, leggings and zebra backpacks, for tales around the fire.

The Kids Spring/Summer 2021 collection will be available in Marni boutiques around the world and on [marni.com](http://marni.com) starting from January 2021.
