## **FOR IMMEDIATE RELEASE**

June 2020

### **Gypsies Of Miro**

Our latest ss21 collection is a colourful cocktail of art and culture. It combines the abstract graphic art of the Spanish painter and sculpture Juan Miro and the eclectic style of dress of traditional European Gypsies.

The collection focuses on combining prints and patterns which normally clash to create an eclectic and cohesive look. Most of the prints are originals and have been designed in house. Frills embellish an already rich palette of colour and pattern. Shapes are full and fluid and pay homage to bold Romani traditional dress, featuring layering, full silhouette and layering.

Most of the fabrics are viscose twills and tulle, along with cotton jersey and lace.
