SS21 'Homegrown'

With our borders closed in these uncertain times, and unable to travel to visit fabric suppliers and manufacturers, this collection by necessity became homegrown.

We are forever grateful for the support of our fabulous long time colleagues in China, who have gone above and beyond to help us make this collection happen.

Predominant hues of natural and blue, are interspersed with coral, lilac, mushroom and grass green in quality linens, crisp gingham, and cool cotton knitwear that can be worn in unlimited combinations and styled for any occasion. Heart-shaped pockets for treasures, pocket handkerchiefs and drawn thread work collars adorn dresses and separates.

Established in 2002 in Auckland, New Zealand, Carbon Soldier strive to create timeless design and lasting quality for newborn to 14yrs.
